Activity:

The Planning Committee's activity focused on initiating a mechanism to solicit member volunteers for the SIG's standing committees and responding to three items in the 2011 AACP Strategic Plan that called for Global SIG involvement and also planning for completion of drafted objectives for global APPEs. Ad hoc committees were formed to address strategic objectives 1.4.1 and 1.4.2, which are to be completed in 2012. Objective 1.4.3 is to be completed by 2013 and will build on the objectives/competencies for global APPEs. A committee to address objective 1.4.3 will be formed in spring 2012 to work during the 12-13 year.

Calls for committee members were made on the SIG listerv and at the business meeting. A total of 50 members stepped forward to volunteer.
