

AACP Pharmaceutics Section Objectives

1. The objectives of the Section of Teachers of Pharmaceutics, American Association of Colleges of Pharmacy, are:
2. To provide a forum for disciplinary and interprofessional dialogue and cooperative effort among its members and related groups for the exchange of information, ideas, and techniques in the field of education in pharmaceutics.
3. To study pharmaceutics curricula in member colleges of the Association for the purpose of improving content.
4. To encourage research in pharmaceutical education and innovations in curricula.
5. To make recommendations to the Association in matters which affect the teaching of pharmaceutics in member colleges.
6. To encourage in the broadest and most liberal manner the advancement of the teaching methods of pharmaceutics in all its branches; the improvement of the qualification and development of teachers of pharmaceutics by ensuring high standards of professional ethics and education; and by maintenance of a high level of pharmaceutical education via professional contacts, reports, discussions, papers, meetings, and activities.
