1. Plan initiatives for the SIG and work with AACP in the overall organization's planning process in the areas of global pharmacy education, research and health care.
2. Submit a mid-year and annual report for inclusion in the SIG business meeting at the 2010 AACP Annual Meeting.

**Activity**

In light of the focus on global education by the Research and Graduate Affairs Committee for AACP and the fact that three members of that committee included the Chair, Immediate Past-Chair, and Chair-Elect of our SIG, it was decided by the members of the Planning Committee that it would be appropriate to postpone any discussions until completion and distribution of the report by the Research and Graduate Affairs Committee.
