

# COUNCIL OF DEANS TASK FORCE ON ACHIEVING INSTITUTIONAL EXCELLENCE

*American Association of Colleges of Pharmacy*

---

The COD Task Force on Achieving Institutional Excellence is developing a list of topics/concerns that member schools are facing. This information will be used to identify methods for AACP to assist members with programs and services that would assist in resolving these issues. Please note this is a confidential survey and we are merely trying to prioritize key issues that are of concern to academic administrators/deans. ***Only one survey should be completed for each school/college.***

---

Please rank each topic considering the administrative aspects of each concern. For example, in Experiential Education, you would focus on issues such as the cost of rotations and personnel/workload issues rather than curricular issues.

---

Please use the following ranking:

- 1 = Significant area of concern
  - 2 = Moderate area of concern
  - 3 = Not a concern
  - 4 = No comment
- 

AREA OF CONCERN:	RANKING
Programmatic assessment	
Experiential Education	
Accreditation/self studies	
School/college governance/Promotion and Tenure	
Leadership/team building	
Strategic planning	
Student Services	
Faculty and Staff	
Budgeting/advocating for budgets, using AACP data	
Space and facilities	
Initiating and sustaining curricular reform	
Selecting technological resources	

Others:

---

**MANY THANKS!**
