Age: 30 years old

Date of Birth: 8-15-1978

Gender: Yours

Weight: Whatever you say.

Pregnancy status: Not

Breast feeding: Not

Occupation: Bank teller

Living arrangements/Family: Use yours

Health Insurance: Use your situation.

REASON FOR THE ENCOUNTER: Athlete's foot

Medication Experience

General attitude toward taking medication: Use them only when you need to.

Expectations from drug therapy: You would like the itching and dry, peeling skin on your foot to clear up.

Concerns with your medications: Don't like "greasy ointments."

Understands medications: Do not take much medication, so do not pay much attention to them.

Cultural/religious/ethical issues: Your religion does not permit you to use artificial methods of contraception.

Medication taking behavior: Only take ibuprofen for occasional tension headaches.

Adult immunizations: Sometimes get a flu shot. Last tetanus shot two years ago when you stepped on a nail.

Tobacco use: Whatever you say.

Caffeine use: Cup of coffee each morning before work.

Alcohol: Whatever you say.

Other recreational drug use: Whatever you say.

Medication allergies: None that you know of. Your mother is allergic to penicillin.

Adverse reactions to drugs in the past: None that you can recall.

Other alerts: None.

Past Medical History: Tonsils out when you were a child. Broken arm while rollerblading as a teenager.

Nutritional status: Eat fairly healthy, with what you consider to be a balanced diet.

Review of systems: Whatever you say.
