# American Association of Colleges of Pharmacy Preceptor Survey 

## 2015 National Summary Report

## About the AACP Curriculum Quality Surveys

Graduating Student, Alumni, and Faculty surveys were initiated and designed by the American Association of Colleges of Pharmacy/Accreditation Council for Pharmacy Education Task Force on Assessment and Accreditation in 2002. These quality perception surveys were intended to gather information on program issues and curriculum quality. With the release of ACPE's Standards 2007, the AACP Institutional Research and Assessment Committee (IRAC), AACP staff, and an external consultant revised the three surveys and created a Preceptor survey. The purpose of the revised surveys is to help member colleges and schools gather data for both continuous program improvement and accountability (accreditation) purposes.

## 2015 Administration

The Preceptor Survey was made available for online access in the AACP Centralized Survey System on May 4, 2015. As of September 2015, 82 out of 134 ( $61.2 \%$ ) colleges and schools of pharmacy administered the survey to their preceptors. A total of 35,716 preceptors were invited to complete the survey. Seven thousand six hundred and twelve $(7,612)$ preceptors submitted the survey for a total response rate over twenty one percent (21.3\%). Response rates per school ranged from 3.6 percent to 84.2 percent. For more information regarding this summary report or the administration of the survey, please contact Jamie Taylor, research analyst (jtaylor@aacp.org).

## 2015 Highlights

## Preceptor Workload and Resources

The majority ( $73.1 \%$ ) of preceptors reported precepting one to five students during the past academic year for the college/school of pharmacy for which they were completing the survey. Nearly 12 percent (11.5\%) of preceptors reported precepting over ten students for the college/school of pharmacy. The majority (58.6\%) of preceptors completing the survey precepted for two or more institutions during the prior academic year.

Over 96 percent ( $96.3 \%$ ) of preceptors strongly agreed or agreed that the student-to-preceptor ratios at their sites were appropriate to maximize learning. Nearly 95 percent ( $94.5 \%$ ) of preceptors strongly agreed or agreed that the facilities and resources at the practice site are adequate in order to precept students. Eighty percent ( $80.1 \%$ ) of preceptors strongly agreed or agreed that the college/school provides them access to library and educational resources. Nearly 11 percent (10.9) of preceptors strongly disagreed or disagreed with this statement.

## Performance Evaluations

In 2015 over 97 percent ( $97.4 \%$ ) of preceptors strongly agreed or agreed that they knew the process for documenting and addressing student performance from their college/school of pharmacy; however, only 82 percent ( $82.2 \%$ ) strongly agreed or agreed that the criteria for evaluating their own performance as a preceptor was clear. Additionally, nearly 19 percent (18.9\%) of preceptors completing the survey strongly disagreed or disagreed that they received the results from student evaluations of their rotation.

## 2015 Preceptor Survey National Summary Report

Total number of schools: 82 (35 public, 47 private) Total number of responses: 7,612
Response Rate: 21.3\%

## Section I: Demographic Questions

1. Gender:

2. Number of years as a licensed pharmacist:

■ Response Percent

3. My practice setting is best described as:

|  | Response <br> Percent | Response <br> Total |
| :--- | :---: | :---: |
| Acute care | $27.8 \%$ | 2118 |
| Ambulatory care | $12.3 \%$ | 937 |
| Academia | $3.9 \%$ | 299 |
| Community pharmacy | $29.7 \%$ | 2258 |
| Drug information | $1.0 \%$ | 78 |
| General medicine | $3.2 \%$ | 244 |
| Industry | $1.1 \%$ | 84 |
| Management | $6.3 \%$ | 476 |
| Other | $14.7 \%$ | 1117 |

4. I precept students in:

|  | Response <br> Percent | Response <br> Total |
| :--- | :---: | :---: |
| Introductory pharmacy practice experiences <br> (Introductory practice experiences occur prior to the final <br> professional year of the curriculum and can include activities <br> such as shadowing, interviewing patients, and service <br> learning). | $11.3 \%$ | 859 |
| Advanced pharmacy practice experiences <br> (Advanced practice experiences should involve direct patient <br> care and most commonly form the core of the final <br> professional year of the curriculum) <br> Both introductory and advanced pharmacy practice <br> experiences | $39.5 \%$ | 3007 |

## 5. Do you have certification or designation through your state board of pharmacy as a preceptor?

6. Degree/Postgraduate Training (check all that apply):
