

There are currently three systems to access data collected by OIRIE:

**AAMS | Survey System 1.0 | Jetpack Survey System 2.0.**

Throughout 2025 to 2026, IR will be transitioning from Survey System 1.0 to the new Jetpack Survey System 2.0. Visit OIRIE's self-serve online library that provides articles and step-by-step instructions on using our three systems: <https://aacpoirie.freshdesk.com/support/home>. During this transition, the three systems concurrently in use are:

### **AAMS: The Assessment and Accreditation Management System (AAMS)**

The purpose of this system is to provide data to member schools and colleges of pharmacy for their assessment and accreditation-related activities.

- Automatic data population for assessment and accreditation from the Survey System 1.0 up until 2024
- **Administration of self-studies:** Schools can continue using AAMS beyond May 2025, but maintenance by OIRIE will be limited

With the implementation of Standards 2025 in July 2025, AAMS has been discontinued as the platform for self-studies. It is replaced by the ACPE Pharmacy Accreditation Report Management System (PHARMS): <https://www.acpe-accredit.org/pharmsplatform/>  
PHARMS contact: [csinfo@acpe-accredit.org](mailto:csinfo@acpe-accredit.org)

- **Administration of faculty profiles:** Faculty can receive a unique survey link to fill out their faculty profile using AAMS

Last date to administer faculty profiles, with maintenance by OIRIE is August 1, 2026. Although schools can continue using AAMS beyond August 2026, maintenance by OIRIE will be limited
