American Association of Colleges of Pharmacy AACP

Pharmacists Help People Live Healthier, Better Lives.

2027 Annual Meeting Presentation Tracks

Submitters will select the track that best aligns with their proposed session:

1. **Curricular Design and Delivery:** Presentations that focus on curricular or co-curricular innovation and delivery
2. **Student Development and Services**: Presentations that focus on recruitment, student pharmacists' professional identity formation, management of academic and wellness issues, and other aspects of serving student pharmacists
3. **Assessment Strategies and Execution**: Presentations that focus on program or programmatic assessment design, and accreditation readiness
4. **Basic and Pharmaceutical Sciences**: Presentations on education and/or research topics related to the biological and molecular basis of disease, and drug discovery & development and advanced delivery systems
5. **Experiential Learning and Operations**: Presentations that focus on IPPEs or APPEs, preceptor development, or operational delivery of experiential education
6. **Pharmacy Practice and Practice Transformation**: Presentations that focus on implementation science, advancing pharmacy practice, and practice transformation
7. **Operations and Administration**: Presentations that focus on structure, business, finance, facilities, human resources, and safety issues relevant to schools and colleges of pharmacy
8. **Faculty Career Development and Leadership**: Presentations that focus on faculty career development, professional advancement, and leadership skills.
9. **Professional Staff Career Development and Leadership**: Presentations that focus on staff career development, professional advancement, and leadership skills.
